Computer Reboot / Restart Best Practices

Chris Ilstrup - 2020-09-28 - Computers

Moving between docks: Close Odyssey & Judge Edition, no need to power off your computer or shut down other programs such as Office365.

End of Day (taking laptop): If you're taking your laptop home perform a "shutdown".

End of day (leaving laptop): If you're leaving your laptop in the office perform a "restart" instead of a "shutdown". This will ensure it pulls windows updates.
