TinyTERM font

Chris Ilstrup - 2019-08-28 - Older Knowledgebase Items

TinyTERM uses its own font for readabilty. To install do the following:

1. Get the font TTF from: \\jud-fs01\JUD-Misc\Software-Brad\VDI Image Software\Software for ADS\Tiny Term 4.12.0\fonts
2. Move file "termcs1.ttf" to the target computer
3. Doubleclick "termcs1.ttf" on the target computer
4. Choose "Install"
5. Relaunch TinyTERM to verify it loads
